ANTI-FRAUD PROTECTION

If it doesn't glow, it didn't go.

Fake payment screenshot apps cost Bengaluru merchants thousands of rupees every single week. Clinkbox 4G solves this completely on your counter.

The 2-Digit Check Code

When a payment succeeds, the customer's phone screen shows a unique 2-digit code (e.g. 42). Clinkbox speaks that exact code aloud and glows amber.

- Direct bank-to-bank settlement
- Sub-1.2 second audio broadcast
- Fake screens cannot trigger the LED halo

ONBOARDING IN 8 MINUTES

Delivered and active today.

A Coinjar Crew field agent visits your counter, completes instant paperless KYC, and pairs your QR standee in under 8 minutes.

CRYSTAL AUDIO

Speaks your counter's language.

Clinkbox 4G broadcasts clear, loud transaction confirmations in Kannada, Tamil, Hindi, and English so you never miss a rupee even during peak traffic noise.

Kannada: "காயின்ஜாரில் ஐம்பது ரூபாய் பெறப்பட்டது."

Hindi: "कॉइनजार पर पचास रुपये प्राप्त हुए। कोड 42."

English: "₹50 received on Coinjar. Code 42."

PRICING TRANSPARENCY

Every fee printed right on the box.

No unexpected deductions. No surprise software lease cuts. All fees are published openly on your counter.
